PROFILE

Career switcher transitioning into frontend development, with hands-on skills in HTML, CSS, JavaScript, React.js and GitHub gained through self-directed learning and independent projects (including building responsive web interfaces, REST API integration, React Router, and deployment on GitHub Pages). Brings several years of administrative and customer-facing experiences, with strong attentions to detail, organization, problem-solving, and communication skills. Motivated to apply these transferable skills while continuing to grow as a frontend developer.
